Summary

Full-Stack Developer and Software Engineering graduate with experience building responsive web and mobile applications. Co-developed Design, an award-winning AI-powered platform, and completed full-stack field training at Orange Digital Center. Focused on building practical, user-friendly digital products.

Education

Bachelor of Software Engineering

Oct 2022 - Jul 2026

Applied Science Private University | Amman, Jordan

GPA: 91.2/100 | Graduated second in cohort

Work Experience

Full-Stack Web Development Trainee (Field Training)

Jul 2026 - Sep 2026

Orange Digital Center - Coding Academy by Orange | Amman, Jordan

- Completed eight weeks of full-stack training in HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Firebase, PHP, MySQL, Git, and database design.
- Published weekly projects covering DOM events, validation, local storage, Fetch API integration, Firestore CRUD, and server-side PHP forms.

Awards

Best Entrepreneurial Project

Jun 2026

Applied Science Private University

- Design was selected from more than 100 graduation projects in the university's Graduation Projects Competition.

Second Place - Business and Society Technologies

Jul 2026

13th National Technology Parade (NTP13)

- Design earned second place in the Business and Society Technologies track at NTP13.

Projects

Design - AI-Powered Custom-Tailoring Platform

May 2026 - Jun 2026

Flutter and Back-End Developer (Two-Person Team) | Flutter, Dart, Supabase, Gemini API

- Co-developed the Flutter app and Supabase backend for customer, tailor, store, and order workflows.
- Integrated Gemini-powered garment design and virtual try-on; my teammate trained and integrated the YOLOv8/TensorFlow Lite body-measurement model.

NOI Beauty Lounge - Salon Website Concept

2026

Full-Stack Web Developer / UI Designer | Concept Project | ASP.NET Core MVC, C#, Razor, Tailwind CSS, JavaScript, JSON

- Designed and developed a responsive salon website concept with categorized service accordions across hair, nails, lashes, and beauty treatments.
- Built reusable Razor components backed by structured JSON content and a visual system based on the salon's existing logo and brand colors.
- Added customer reviews, theme controls, contact details, and Google Maps integration with a static-image fallback.

Invite Sites - Digital Invitation Website Service

Aug 2026 - Sep 2026

Front-End Developer and Product Creator | HTML5, CSS3, JavaScript, SVG Animation

- Built and launched 13 responsive English and Arabic RTL invitation designs with RSVP tracking, maps, audio, animation, photos, and shareable mobile links.

HopeBridge - Charity Management Platform

Aug 2026 - Sep 2026

Full-Stack Web Developer | PHP, PDO, MySQL, JavaScript, Figma

- Built donor, beneficiary, and admin workflows using PDO prepared statements and a 10-table MySQL schema, then published a responsive 28-page demo.

Glamé AI - Beauty-Tech Website Concept

2026

Front-End Developer / UI Designer | In Progress | HTML, Tailwind CSS, JavaScript, Responsive Design, UI/UX

- Designed and developed an in-progress responsive beauty-tech concept, shaping its visual direction, hero experience, navigation, and core layouts.
- Built front-end interactions around helping users adapt beauty inspiration with products they already own.

Skills

Core Development: JavaScript, HTML5, CSS3, Flutter, Dart, PHP, C#

Front End: Tailwind CSS, Bootstrap, Razor, responsive design, SVG animation, RTL layouts

Back End and Data: ASP.NET Core MVC, Supabase (PostgreSQL), MySQL, SQL, PDO, Firebase/Firestore, REST APIs, JSON

AI Integration: Gemini API integration in Flutter

Tools and Design: Git, GitHub, Figma

Additional Programming: Java, C++

Certificates

Microsoft Certified: Azure AI Fundamentals (AI-900) <i>Microsoft</i>	May 2026
Introduction to Networks <i>Cisco Networking Academy</i>	May 2026
AWS Educate: Getting Started with Storage <i>AWS Educate</i>	Feb 2026
Foundations of User Experience (UX) Design <i>Google (Coursera)</i>	Jun 2024
Building AI Powered Chatbots Without Programming <i>IBM (Coursera)</i>	Oct 2023
Getting Started with AI using IBM Watson <i>IBM (Coursera)</i>	Sep 2023
Introduction to Artificial Intelligence (AI) <i>IBM (Coursera)</i>	Sep 2023

Languages

Arabic: Native | English: Fluent

Volunteering

Tutor & Volunteer <i>Academic Support Club, Applied Science Private University</i> Delivered Flutter revision and group tutoring sessions for Visual Programming students, helping them prepare for exams. Also supported student orientation by assisting with semester registration, answering questions, and introducing university resources and activities.	Oct 2025 - Feb 2026
Organiser <i>Software Engineering Club, Applied Science Private University</i> Contributed to the Software Engineering Club throughout the Spring 2025 semester, supporting student-led technical activities and events. Coordinated UI/UX Contest V5 and served as its Master of Ceremonies, helping manage and host the event for participants and attendees.	Mar 2025 - Jul 2025
Volunteer <i>English Language Olympia 2023</i> Guided first-grade participants through competition activities, offering encouragement and on-site support throughout the three-day event.	May 2023
Volunteer <i>Applied Science Private University</i> Supported the Promising Translator Contest held at Applied Science Private University on 11 March 2023.	Mar 2023
