Summary

Full-Stack Developer who designs and builds responsive web and mobile applications from interface to database. My UI/UX is simple to use yet memorable, giving every product a clear, distinct identity.

Education

Bachelor of Software Engineering Oct 2022 - Jul 2026
Applied Science Private University | Amman, Jordan
GPA: 91.2/100 | Graduated 2nd in cohort

Work Experience

Full-Stack Web Development Trainee (Field Training) Jul 2026 - Sep 2026
Orange Digital Center - Coding Academy by Orange | Amman, Jordan

- Completed eight weeks of full-stack training in HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Firebase, PHP, MySQL, Git, and database design.
- Published weekly projects covering DOM events, validation, local storage, Fetch API integration, Firestore CRUD, and server-side PHP forms.
- Built HopeBridge, a charity management platform with donor, beneficiary, and admin workflows, using PDO prepared statements and a 10-table MySQL schema, then published a responsive 28-page demo.

Awards

Best Entrepreneurial Project Jun 2026
Applied Science Private University

- Besign was selected from more than 100 graduation projects in the university's Graduation Projects Competition.

Second Place - Business and Society Technologies Jul 2026
13th National Technology Parade (NTP13)

- Besign earned second place in the Business and Society Technologies track at NTP13.

Projects

Besign - AI-Powered Custom-Tailoring Platform May 2026 - Jun 2026
Two-Person Team | Flutter, Dart, Supabase, Gemini API

- Co-developed the Flutter app and Supabase backend for customer, tailor, store, and order workflows.
- Integrated Gemini-powered garment design and virtual try-on; my teammate trained and integrated the YOLOv8/TensorFlow Lite body-measurement model.

NOI Beauty Lounge - Salon Website Concept 2026
HTML5, Tailwind CSS, JavaScript

- Designed and developed a responsive salon website concept with categorized service accordions across hair, nails, lashes, and beauty treatments.
- Built English/Arabic language switching and light/dark themes, with a visual system based on the salon's existing logo and brand colors.
- Added customer reviews, an FAQ, opening hours, contact details, and Google Maps integration with a static-image fallback.

Invite Sites - Digital Invitation Website Service Aug 2026 - Sep 2026
HTML5, CSS3, JavaScript, SVG Animation

- Built and launched 13 responsive English and Arabic RTL invitation designs with RSVP tracking, maps, audio, animation, photos, and shareable mobile links.

Glamé AI - Beauty-Tech Website Concept 2026
HTML5, Tailwind CSS, JavaScript

- Designed and developed an in-progress responsive beauty-tech concept, shaping its visual direction, hero experience, navigation, and core layouts.
- Built front-end interactions around helping users adapt beauty inspiration with products they already own.

Mimélle - Contact Lens Storefront Concept 2026
HTML5, Tailwind CSS, JavaScript

- Built a self-initiated storefront for a fictional colored contact lens brand with shade, size, and power filters, product pages, wishlist, cart, and a cash-on-delivery checkout, all driven by plain data files.

Skills

Core Development: JavaScript, HTML5, CSS3, Flutter, Dart, PHP
Front End: Tailwind CSS, Bootstrap, responsive design, SVG animation, RTL layouts
Back End and Data: Supabase (PostgreSQL), MySQL, SQL, PDO, Firebase/Firestore, REST APIs, JSON
AI Integration: Gemini API integration in Flutter
Tools and Design: Git, GitHub, Figma
Additional Programming: Java, C++

Certificates

Microsoft Certified: Azure AI Fundamentals (AI-900) May 2026
Microsoft

Introduction to Networks May 2026
Cisco Networking Academy

AWS Educate: Getting Started with Storage Feb 2026
AWS Educate

Foundations of User Experience (UX) Design Jun 2024
Google (Coursera)

Volunteering

Tutor & Volunteer Oct 2025 - Feb 2026
Academic Support Club, Applied Science Private University

- Delivered Flutter revision and group tutoring sessions for Visual Programming students, helping them prepare for exams. Also supported student orientation by assisting with semester registration, answering questions, and introducing university resources and activities.

Organiser Mar 2025 - Jul 2025
Software Engineering Club, Applied Science Private University

- Contributed to the Software Engineering Club throughout the Spring 2025 semester, supporting student-led technical activities and events. Coordinated UI/UX Contest V5 and served as its Master of Ceremonies, helping manage and host the event for participants and attendees.

Volunteer May 2023
English Language Olympia 2023

- Guided first-grade participants through competition activities, offering encouragement and on-site support throughout the three-day event.

Volunteer Mar 2023
Applied Science Private University

- Supported the Promising Translator Contest held at Applied Science Private University on 11 March 2023.
