

MAYA HELMI

SOFTWARE ENGINEER | FULL-STACK WEB, FRONT-END AND FLUTTER DEVELOPMENT

Amman, Jordan | +962 78 101 6964 | mayahelmi@gmail.com
linkedin.com/in/maya-helmi-934349292 | github.com/MayaHelmi | mayahelmi.github.io/maya-portfolio

PROFESSIONAL SUMMARY

Software Engineering graduate ranked second in cohort (91.2/100) with hands-on experience building full-stack web, Flutter, and applied-AI products. Co-developed Besign, an award-winning custom-tailoring platform using on-device YOLOv8-pose/TensorFlow Lite, Gemini, and Supabase. Completed full-stack field training at Orange Digital Center and builds accessible Arabic and English interfaces with TypeScript/React/Next.js, JavaScript, PHP/MySQL, and Firebase.

EDUCATION

Bachelor of Software Engineering

Oct 2022 - Jul 2026

Applied Science Private University | Amman, Jordan | GPA: 91.2/100 | Graduated second in cohort

Selected coursework: Flutter Mobile Development (99), Web Development (99), ASP.NET MVC (98), Data Structures and Algorithms (93), Object-Oriented Programming in Java (93), JavaFX (93)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, PHP, Python, Java, C++, C#, SQL, HTML5, CSS3

Web: React, Next.js, Tailwind CSS, Bootstrap, CSS Modules, responsive design, accessibility, Arabic/English RTL

Mobile and AI: Flutter, TensorFlow Lite, YOLOv8-pose, Gemini API, Azure AI

Back End and Data: Supabase (PostgreSQL, Auth, Storage, RLS), MySQL, PDO, Firebase/Firestore, REST APIs, ASP.NET MVC, Zod

Testing and Tools: Playwright, Git, GitHub, Figma, Blender, Trello, Jira, Android Studio, Xcode, VS Code

EXPERIENCE

Full-Stack Web Development Trainee (Field Training)

Jul 2026 - Sep 2026

Orange Digital Center - Coding Academy by Orange | Amman, Jordan

- Completed an eight-week, Agile-inspired program (19 Jul-13 Sep 2026) covering responsive HTML/CSS, Bootstrap, Tailwind CSS, JavaScript, Fetch/HTTP, Firebase, PHP, MySQL, Git, and database design.
- Built and published weekly assignments covering DOM/events, validation, local storage, API consumption, Firestore CRUD, server-side forms, and 45 PHP exercises across more than 20 public repositories.
- Took HopeBridge from UX research, user journeys, wireframes, and Figma mockups to a three-role charity platform with authentication, dashboards, donations, assistance requests, messaging, and a MySQL ERD.
- Co-built the field-training presentation website with automated asset/link checks, JavaScript syntax validation, and interaction tests.

Visual Programming Peer Tutor

Oct 2025 - Feb 2026

Academic Support Club | Applied Science Private University

- Delivered Flutter revision and academic-support sessions for Visual Programming students and supported new students during a semester orientation event.

FEATURED PROJECT

Besign - AI-Powered Custom-Tailoring Platform | Flutter, Supabase, TensorFlow Lite, Gemini

2026

- Co-developed a two-person Flutter marketplace connecting customers, tailors, and fabric stores through Supabase-backed authentication, storage, data, and order workflows.
- Implemented Gemini-powered garment generation, refinement, and virtual try-on, plus an on-device YOLOv8-pose/TensorFlow Lite pipeline producing 12 reviewable measurements from customer photos and height.
- Won Best Entrepreneurial Project among 100+ Applied Science Private University graduation projects and placed second in the Business and Society Technologies track at NTP13 2026.

ADDITIONAL PROJECTS

InviteSites - Private Full-Stack Event-Site Studio | *Next.js, React, TypeScript, Supabase*

2026

- Built a private full-stack studio with creator authentication, RLS-protected Postgres data, an autosaving editor, publishing, media management, and RSVP workflows.
- Created seven database-driven templates and 13 Playwright end-to-end tests covering creator, security, publishing, RSVP, media, and desktop/mobile paths; maintained a separate public showcase with 13 demos.

HopeBridge Charity Platform | *PHP, MySQL, JavaScript, Figma*

2026

- Built donor, beneficiary, and administrator workflows for donations, assistance requests, approvals, messaging, and reporting using PDO prepared statements and a 10-table MySQL schema.
- Published a responsive 28-page static demo and documented the product with an ERD, empathy maps, user journeys, wireframes, and mockups.

Glamé AI - Web Prototype and Mobile Product Concept | *HTML, Tailwind CSS, JavaScript, UML*

2026

- Built an eight-page interactive web prototype with a comparison slider, click-through account flow, guided look creator, local image previews, saved looks, kit interactions, and profile controls.
- Produced requirements, UML/PlantUML diagrams, system architecture, and mobile UI designs; the web AI, authentication, and persistence remain explicitly simulated.

Additional work: Wedding Atelier Concept (38 pages, Python build pipeline, automated link/SEO audits); Print Artwork Marketplace Concept; Ghurza garment-care marketplace front end; Dailydrobe wardrobe app with OpenWeather integration.

AWARDS AND COMPETITIONS

- Best Entrepreneurial Project - Applied Science Private University Graduation Projects Competition; Besign selected from more than 100 projects (May 2026).
- Second Place - Business and Society Technologies, 13th National Technology Parade (NTP13); Besign project no. 18809 (2026).
- Certificate of Appreciation - NTP13 project competition (2026); Participant - GJU 3030 Future Technology Competition, third edition (4 May 2026).

CERTIFICATIONS AND TRAINING

- Microsoft Certified: Azure AI Fundamentals (AI-900) - 19 May 2026; credential ID F1740BF56188E9C3.
- Foundations of User Experience (UX) Design - Google/Coursera, 28 Jun 2024; credential 3EVYBC4LGXV8.
- IBM/Coursera: Introduction to Artificial Intelligence (22 Sep 2023); Getting Started with AI using IBM Watson (27 Sep 2023); Building AI Powered Chatbots Without Programming (5 Oct 2023).
- AWS Educate: Getting Started with Storage training and badge; Chatbots for Accessibility training with an Amazon Lex simulation (completed Feb 2026).
- Cisco Introduction to Networks course (May 2026).

LEADERSHIP AND COMMUNITY

- Organized the UI/UX Contest V5 for the Faculty of Information Technology at Applied Science Private University (May 2025).
- Volunteered at the English Language Olympia, supporting event operations and participants (11-13 May 2023).
- Participated in the Promising Translator Contest at Applied Science Private University (11 Mar 2023).

LANGUAGES

Arabic (native) | English (excellent)
